

KEY PARTNERS

Parents and guardians; schools and coordinators; NGOs, funders and sponsors; community venues.

Qualified teachers and senior tutors; vetted tutors and volunteers; technology and future screening partners.

KEY ACTIVITIES

Deliver and schedule tutoring; recruit, vet, train and support tutors and volunteers.

Build and teacher-review CAPS content, diagnostics and progress interventions.

Operate the secure data-light platform; manage safeguarding, POPIA, reporting, payments and payroll.

KEY RESOURCES

Trusted tutors and reviewers; CAPS Maths map; reviewed content and diagnostic item bank.

React + Supabase platform, secure role-based data and reporting, brand and local relationships.

VALUE PROPOSITION

Structured, confidence-building CAPS support for South African learners.

Personalised next steps, tutoring, practice, feedback and visible progress - built mobile-first for low-data, shared-device conditions.

Odie careers guidance, parent reports and a growing teacher-reviewed content library add value beyond the lesson.

CUSTOMER RELATIONSHIPS

High-trust, human-led tutoring with digital continuity between sessions.

Parent/guardian permission and safeguarding; focused learner guidance, enabled parent reports and scoped cohort insights.

Retention through progress evidence, tutor feedback and relevant learning/careers support.

CHANNELS

Parent networks and referrals; public website, email and WhatsApp enquiries; tutor word of mouth.

School and NGO partnerships; coordinator-led rollout; community venues.

Role-based dashboards plus in-person tutoring sessions and classes.

CUSTOMER SEGMENTS

Primary payers: parents/guardians of Grade 8-12 Maths learners.

Institutional payers: schools, NGOs and funders sponsoring cohorts.

Users: learners, parents, tutors and school/NGO coordinators. Start with Grade 8-12 CAPS Mathematics, depth-first on Grade 12 Paper 1.

COST STRUCTURE

Tutor compensation, recruitment, vetting and training; content authoring, teacher review and quality assurance.

Hosting, storage, AI, monitoring and backups; safeguarding and POPIA compliance; support, partner onboarding and administration.

Marketing/referrals, data-light product development, reporting and community/volunteer coordination.

REVENUE STREAMS

Current: paid private 1:1 and small-group tutoring funded by parents/guardians.

Expansion: school contracts, school/parent-funded programmes, NGO/funder-sponsored cohorts and potential institutional programme-management packages.

Community delivery remains free to learners, sustained by paid strands, grants, partners or sponsorships. Fees and unit economics are still to be validated.
